

## This is what I believe:

★ It is crucial that **people with disabilities live independently** and participate fully in all aspects of life.

★ Caring for Minnesota's most vulnerable citizens is a **core government service**.

★ Funding of these services depends on the legislature, so I favor candidates who support **adequate funding** of these services.

★ I'd like to be a **resource** for you in the future. Please let me know if you'd like to hear **more about disability services**.

See the reverse side for resources and to share your story with candidates.
